

25 February 1964

MEMORANDUM FOR: Director of Personnel

SUBJECT : Screening of Applicants

1. As I discussed with Messrs. Echols, [REDACTED] several recruiters suggested that CIA should experiment more imaginatively with new screening techniques along the lines of FSEE, and the pilot program of screening applicants in the field being conducted by NSA in the Boston area. Others in the Office of Personnel seem to share these views.

25X1A

2. There seems to be some consensus that we may not only be able to reduce costs and increase efficiency, but also, through appropriate advertising, reach JOT and other junior professional candidates who otherwise might not be reached.

3. Could we have the views of the Office of Personnel on these ideas?

[REDACTED]  
Inspector
